THE NEW CACTUS DAHLIA "GEO. L. STILLMAN," AND ITS ORIGINATOR.

The accompanying illustration is from a photograph taken to demonstrate what the necessary quantity of water will do for a dahlia in a dry time. After one flower had nearly opened on this plant it appeared to come to a standstill. Buds died, the foliage grew bushy, lacked a lively color, and no more buds appeared. I immediately pulled up a ridge of soil a little away from the plant, forming a reservoir that held two pails of water. The plant was then supplied with four or five ten-quart pails of water every third day until rain came.

When this photo was taken there were seven full flowers, two half open, and nine buds that showed the color of the flower more or less. Three of these flowers measured seven inches in diameter and all the others over five inches.

Very few people realize the quantity of water needed to carry a dahlia through a dry period. Not only does a dahlia absorb the moisture, but the dry ground around also draws on the supply.

Introductory

I always anticipate with much pleasure this annual handshake with my customers. This year when so great an advance has been made in everything connected with the Dahlia, I am particularly happy to express my appreciation to all those Dahlia enthusiasts who have made these advances possible by their very enthusiasm.

During the year 1915 there has been a great advancement in varieties. A number of those which have become obsolete through lack of interest to the purchasers, have been taken out of the catalogues and in their place I have substituted a large number of sterling new introductions. Never before have I had such a splendid group of new Dahlias to bring to your attention, as are presented in this issue of my Year Book.

The formation of the American Dahlia Society in New York, in May of the past year, the rise of this organization to the leadership of the Dahlia field through the gathering of over 225 active members in the first six months of its existence, and the holding of one of the biggest Dahlia Shows at the American Museum of Natural History, on September 24th, 25th and 26th; the establishment of standards of nomenclature, etc., are happenings of the past year which will tend to even further increase and extend the love and enthusiasm of the American public for the Dahlia.

The success of this Dahlia organization expresses the leadership that has been so fittingly accorded the Dahlia as "Everyman's Delight."

I want to take this opportunity of thanking my customers and friends for the many courtesies extended to me. I wish to solicit this continued patronage and shall endeavor to please every person who entrusts his orders to my care—whether these orders be large or small.

The success of my business is equal only to the success of every one of my customers. As no chain is stronger than its weakest link, so is my success as a Dahlia specialist equal only to the success which my customers have with the stock I furnish them.

For this reason, and because I am so anxious to help fellow Dahlia enthusiasts, I want to renew my offer to furnish you cultural notes, suggestions and advice, and help you to greater success.

So many things enter into the success of Dahlias, as with any other plant, that I wish you to call upon me often to suggest remedies for any difficulties you may have encountered, as it is only a rare possibility that bad luck is caused by the bulb. Rather should it be credited to weather conditions, soil or culture, or all three combined causes.

In another part of this book I have endeavored to give you a few hints of the most important points of Dahlia culture. I hope that these will prove of help to you.

I urge you to kindly acknowledge receipt of this Year Book that I may be sure that you have a copy and that I have your correct address on file.

There is no need for hesitation in placing your order with me because of distance, for bulbs go safely by mail to any part of the United States or foreign countries.

I want to take this opportunity of extending a cordial invitation to all dahlia lovers to visit my gardens, especially during the flowering season.

GEORGE L. STILLMAN, Dahlia Specialist,
Westerly, Rhode Island.

DAHLIAS ARE MY SPECIALTY

I grow no flowers except dahlias and give my whole attention to originating and cultivating the very choicest varieties that can be produced of this most popular flower.

There are no plants that can be grown entirely in the open that produce as many large and exquisite flowers, and of so many beautiful shades and varied colors, as the dahlia.

They not only bloom freely, but bloom continually until killed by frost.

Dahlias are especially adapted to landscape gardening, and on large estates, where an endless variety of styles and colors can be grown. For table, house and church decorations dahlias stand pre-eminent.

On the inside of the back cover page is a partial view of one of my fields containing over four acres of dahlias. This picture alone should convince the most skeptical that they can grow dahlias successfully.

I receive numerous inquiries every year as to the best fertilizer for dahlias and where it can be obtained.

FROM MY OWN PERSONAL EXPERIENCE I find that manure from the cow or sheep stable is the best for dahlias, and in order to make it convenient for my customers to obtain this kind of fertilizer, I have procured a supply direct from the stockyards. It is absolutely pure and thoroughly kiln-dried and pulverized, and all germs of grass or weeds are destroyed in the process. It is put up perfectly dry in 100-pound bags, which is the most convenient form for shipping and handling. It is so dry that it is nearly odorless and easily handled. Price for the Cattle Manure, \$1.60 per bag; 5 bags, \$7.25; 10 bags, \$13.50. Price for the Sheep Manure, \$1.90 per bag; 5 bags, \$8.75; 10 bags, \$16.50.

POINTERS ON GROWING DAHLIAS

There are always some people who do not succeed in growing dahlias with their first season's experience, and are naturally very much disappointed. To those I wish to say that it is not due to a fault of mine or of the bulbs, but is due wholly to your method of cultivation, kind of soil, or weather conditions. A glance through the hundreds of letters I receive from pleased, enthusiastic people who purchase their stock from me is positive proof that my stock is without fault. Exercise a little patience and a whole lot of good common sense, and you will grow as nice dahlias as any one.

Heavy Soil and Coal Ashes.—I receive frequent letters from people who plant their dahlias in heavy soil and they produce no flowers, but an abundance of foliage. If you have no light soil you should treat it as follows: Spade in two parts of coarse coal ashes to one of soil, to the depth of 10 to 18 inches, and then plant as per directions elsewhere. Dahlias will do better in a heap of solid coal ashes than in heavy loam. Wherever you plant them be sure to use plenty of fertilizer and do not forget to water the plants in dry weather. See following directions and also directions on page 2 for watering.

Do not select rich, deep, heavy soil on which to plant your dahlias. Dahlias need light soil with good drainage. The kind of soil recommended for a peach orchard is the best for dahlias, viz.: a hillside, or often a stony knoll is selected. If weak soil is used, an increased amount of fertilizer should be used, and if the season is dry a good quantity of water should be supplied.

Watering with a garden hose is a help in dry, hot weather, if enough water is used, but will never wholly substitute for a good rain.

A good method of watering is to make a basin-shaped mound of earth around the plant, about two feet in diameter, and into this basin turn three or four water pails full of water as often as every three or four days.

Heavy soil with clay sub-soil will usually produce an abundance of foliage and few or inferior flowers. **Fertilizers** from the cattle or sheep stable are best, and one to two quarts should be applied to each plant **under or side of the bulb** when planted.

The ground should be spaded or plowed to a depth of about ten inches. When the soil has been properly prepared, and the hole dug six inches deep in which to plant the bulb, the fertilizer should be put in and well mixed with the soil.

Then the bulb should be **laid down flat**, and covered to a depth of four to six inches.

NEVER STAND THE BULB ON END IN PLANTING.

Plant the hills at least three feet apart. Give them plenty of room, and plant them where they will have plenty of sun.

Dahlias do best alone by themselves out of reach of roots of shrubs or trees.

Keep the ground well cultivated and free from weeds. A frequent stirring of the surface is very beneficial. An application of some standard fertilizer raked into the surface of the soil around the plant two or three times during the season will be very helpful to the development of the flowers.

When the buds begin to open a dressing of liquid fertilizer around the plants, several times in a season, will also be beneficial.

Never leave more than one or two stalks in a hill. You will have better plants and larger flowers if you will allow only one sprout to grow.

Stakes may be used to advantage to prevent plants from breaking down.

For early flowering they may be planted any time after May 1st, or as soon as all danger from frost is passed.

Some people have an idea that the larger the bulb the better plant it will make, but this is not the case. A small bulb is just as good as, and in many cases better than, a large one.

CARE OF BULBS IN WINTER.—After the frost has killed the foliage, lift the clumps with a spade fork and allow them to dry in the sun about half a day. They should then be stored in a place free from frost. If an old-style cellar without cement bottom or heat, they need not be covered, but if cemented and heated by furnace, they should be covered with earth, or put into a tight box covered with papers and cloth to keep the air from them and thus prevent too much shriveling.

If dahlia sprouts get too long at planting time, CUT them off near the base, and they will come again and make a better plant than if the long sprout is used.

DIVIDING THE CLUMPS.—When you are ready to plant, the clumps can be easily divided by using a sharp knife and hammer. By this time you can readily see where the sprouts are, and one of these left on a bulb is all that is necessary to make a nice plant, and is better than more.

Remember, if bulbs are received before you are ready to plant them, cover them with moist earth to keep them from drying up.

GENERAL INSTRUCTIONS

IT IS IMPORTANT THAT YOU READ THESE CAREFULLY!

FIRST OF ALL.—Send me your order as soon as you receive my catalogue, as the demand for some varieties often exceeds the supply, and those who order early are less liable to disappointment than if they waited till the rush at the time of planting. **ORDER EARLY.**

If you do not want to spare all of the money to send with the order, send the order along, together with one quarter of the amount as a guarantee of good faith, and the balance can be remitted when you receive notice that your order is ready to ship.

Customers who are not personally known to me will be notified when to remit the amount of their bill.

Bulbs are shipped as soon after April 1st as convenient, unless otherwise specified.

When sending orders use the Order Blank furnished with this catalogue. Any number of additional Order Blanks may be had upon application. When filling out the Order Blank, be sure to fill out the Second Choice columns as well as the First Choice.

It is well to mention the varieties that you are willing to have substituted in case some of those selected are all sold out. Or, if requested, I will select such varieties as will substitute to best advantage. Otherwise, money sent for such bulbs will be returned to the sender.

SIZE OF BULBS.—Some varieties of dahlias always produce very small bulbs (or tubers), while other varieties make large ones. So do not consider small bulbs as worthless, for they are equally as good as large ones.

I GUARANTEE EVERY BULB I SELL.—The utmost care is always exercised in selecting every bulb I send out, and every one is believed to have at least one good sprouting eye that will produce a good plant under proper care.

Bulbs to be replaced after June 1st will be booked for shipment the next season only, and in all cases the bulb to be replaced must be returned.

I guarantee all bulbs to be true to name and sure to grow at the time they are sent out, but I cannot guarantee bulbs to grow if kept in a dry place a long time before planting. **UNPACK IMMEDIATELY UPON RECEIPT.**

The best way to send money is by registered letter, money order or express order.

Do not hesitate to send small orders. An order for one bulb will be as carefully filled as an order for one thousand.

TERMS.—Cash invariably in advance, or C. O. D. On all retail orders fully paid for in advance I will prepay carriage to any part of the United States. This does not apply to special offers.

ATTENTION.—Orders taken in the fall of 1915, not fully paid for, will be sent C. O. D., unless previous arrangement has been made.

All bulbs not fully paid for will be sent C. O. D., unless other terms have been agreed upon.

Do not delay ordering until the time to plant, as many varieties may be sold out before that time. **ORDER EARLY.**

If bulbs are received before it is convenient to plant them, they should be covered with moist earth until planted.

I use the utmost care to prevent errors in labeling and packing, but if an error does occur, kindly notify me, that it may be rectified immediately.

Address all orders and communications to George L. Stillman, Dahlia Specialist, Westerly, Rhode Island.

CLASSIFICATION OF DAHLIAS

CACTUS DAHLIAS are distinguished by their long, twisted or pointed petals.

DECORATIVE DAHLIAS include loose-flowering varieties which are full or nearly full to the centre with broad, nearly flat petals.

SHOW DAHLIAS apply to those varieties producing large, round, quilled, well-formed flowers, showing only solid colors, but many frequently have shaded tips.

FANCY DAHLIAS include nearly all round, variegated, quilled varieties, although the lines are not definitely drawn between the Show and Fancy varieties.

POMPON DAHLIAS.—This class embraces the small, round, miniature dahlias, the plants of which are generally of dwarf habit.

PÆONY-FLOWERED, or ART DAHLIAS, are of immense size and have two or more rows of petals, and are generally of a flat and twisted formation.

SEMI-PÆONY or DUPLEX DAHLIAS are those that have more than twelve florets and less than three rows of florets.

SINGLE DAHLIAS have but a single row of petals, eight to twelve in number.

COLLARETTE DAHLIAS.—This class of dahlias has one row of petals, like single dahlias, and in addition has a collarette of small petals around the yellow centre of the flower.

NOTE: There are different opinions about the division of some classes, and the above rules apply in general terms.

Have you read the preceding pages carefully? Do not hesitate about ordering Dahlia Bulbs on account of distance, for they go safely by mail or express to any part of the world.

TO THE BEGINNER

A FEW THINGS THAT YOU SHOULD CONSIDER

Do not expect to grow as large flowers as an expert the first year that you try dahlias, for with any flower you need some experience as well as instructions in order to have great success.

One of my customers said that he had no luck with dahlias until he read my catalogue. There he found the very information that he needed, viz.: **How to lighten the soil and render it porous.**

If you have a heavy growth of plants and no flowers it is an indication of too heavy soil, or the same result will be encountered on some dry, rich land. In the latter case water is what is needed and in great abundance, say three or four pails of water three times a week to each plant, with some liquid fertilizer once a week.

Notice that after a heavy rainfall dahlias take on new life and the flowers are fuller in the centre and more brilliant in color.

MIANTONOMI

A SHORT TALK ON THE DAHLIA, ITS RISE AND POPULARITY, NEWLY ORIGINATED STOCK, AND THE DEMAND FOR IT

About a quarter of a century ago the dahlia was in its infancy. It had still to prove that it was a wonderful flower, which, if only cared for, would range supremely in beauty, size, type, and coloring. To a great extent it may be said that it has succeeded; it has pushed its way forward through the crowded markets of its fellow flowers; has made its initial appearance; and has been acknowledged and accepted by the masses as the very flower to adorn, to the very best advantage, their yards, grounds, and home; and they consider it unsurpassed for beautiful table decorations, or show-window displays.

At an early stage we had what was called the "old-fashioned dahlia," a small, close-growing type. Then the cactus and decorative dahlias became general favorites, until to-day we find the beautiful pæony-flowered and other types meeting the popular fancy. It is an acknowledged fact that the dahlia has risen greatly and is now surpassing all the once very popular flowers. Probably one good reason for this is because many have discovered that a greenhouse is not needed for dahlia culture, and that with a few feet of garden soil and the exercising of good care and patience, they can have their own attractive garden with a wide range of beautiful coloring. Letters from enthusiastic customers only go to prove this statement more strongly, for indeed people are becoming more and more interested in this flower.

I have made a very careful study of the dahlia for years and have devoted my time to this flower exclusively. During the past year I succeeded in bringing before the public the largest and best collection of new types of my own origin that have ever been grown and exhibited before in the United States. Practically all of my new dahlias have been shown at exhibits about this section of the country, have received much praise, and have won prizes of merit at the various shows.

In buying your dahlias is it not well to consider buying from one who has made a study of the dahlia to a great extent? I am very proud of all my new varieties, and not only myself, but many other dahlia lovers, pronounce them the best collection that has yet been seen.

Of course you will find nice dahlias among the older varieties, but why not invest your money in something new, for there is a great demand for the new varieties. Look my list over carefully. The dahlias are described to the best of my ability, and I feel sure that you will be very much pleased if you purchase any of them. It may interest you to know that I guarantee every bulb to be true to name, and sure to grow, when it leaves my place, but of course I am not responsible for bulbs that fail that have received poor treatment either in the mail or by being left around in a dry place before unpacking and planting. Remember that bulbs should be unpacked immediately upon receipt and given the proper care.

Look over my catalogue carefully for minute instructions regarding the further care of the dahlia, also read my list and descriptions, and then consider the fact—is it not worth while trying some of these dahlias, following instructions, and above all, buying from one who has studied this popular flower so long? Your orders are acceptable at any time for spring delivery, and they will receive prompt attention both in acknowledging and shipping. Give me an opportunity to let you see what I have done in furthering the development of the dahlia.

Those who have had the opportunity of seeing my unusual new dahlias at any of my exhibits this season, or at my gardens, can testify as to the wonderful results that I have achieved in my method of originating new, sensational dahlias.

FLOWERS OF THE "GEO. L. STILLMAN," SHOWING LENGTH OF STEM

SUPERB, ORIGINAL NEW DAHLIAS FOR 1916

The Following Are a Few of the Magnificent New Cactus, Pæony-Flowered, Decorative, Show, Semi-Pæony, Single, and Collarette Dahlias Which I Have Recently Originated and I Am Now Offering For Sale to the Public. I Want to Say Right Here That This List Comprises the Best Lot of Original New Dahlias That Have Ever Been Introduced By Any One Person in This Country

CACTUS

GEORGE L. STILLMAN, No. 67. The color of this beautiful new dahlia is a very rich velvety light maroon. The form of the flower is of a true cactus type and of an exceedingly large size, often measuring .8½ inches in diameter. The flowers are borne on long stiff stems, some measuring as long as 30 inches. Then the great length of stalks between the joints render it a most unusual dahlia for decorations in large vases. This new dahlia has won prizes wherever exhibited and also won the admiration of all who have seen it at the many places where the flower has been shown. One grower reports that he had one flower of this dahlia that measured 11 inches in diameter. An idea of the beautiful shade of this dahlia can only be gained by seeing it. As the originator of this monster dahlia I am proud to give it my own name, with the assurance that it will win for itself a place at the head of the cactus dahlia family. It is an exceedingly stout, high-growing plant and should have an abundance of fertilizer and an immense quantity of water, which will amply repay one in gorgeous, beautiful flowers; a lack of which will sometimes cause an inferior flower with open centre. The New York daily papers, in commenting on this dahlia as shown at the Dahlia Show of the American Dahlia Society in New York City, said: "The new hybrid type of cactus dahlia was well exemplified by Mr. Stillman's velvety crimson novelty named after himself, George L. Stillman. It is an immense flower, very full and rich. It might well be taken as the standard of American cactus dahlias."

This dahlia also won the silver cup at the National Dahlia Society's Show in Portland, Oregon, in September, 1915, for the best red cactus dahlia.

NEW PÆONY-FLOWERED DAHLIAS FOR 1916

THE INDIAN FAMILY

The Most Wonderful Set of Pæony-Flowered Dahlias Ever Originated

These superb, new, giant, pæony-flowered dahlias were originated by myself in 1913 through very careful experimental processes with the largest and most superb colored dahlias in existence. I have given them a thorough trial the past season and find them to possess the most artistic and unusual colors ever seen in dahlias. There are no two alike in the group, and all have fine stems for cutting.

You should own the whole "Indian Family." The stock is limited and the person lucky enough to own the entire "Indian Family" will have the most beautiful and complete set of new pæony-flowered dahlias obtainable.

Wherever these new dahlias have been exhibited at the numerous dahlia shows the past season they have been the wonder and admiration of all.

One gentleman, who had the whole "Indian Family" this past season and also a "George L. Stillman" dahlia, writes thus: "All of these twenty-one varieties had elegant, long, stout stems, and all kept well in water during cutting season."

OSCEOLA, No. 39. Very light canary yellow. An enormous flower and beautifully formed. The most delicate shade of light yellow imaginable. This is a very free blooming dahlia and should be seen to be appreciated.

Plants only. Price \$5.00.

MIANTONOMI, No. 1022. Deep amber buff with a tint of salmon pink. An entirely new and most desirable color for the dahlia. This new and attractive color has been the admiration of all who have seen it. Many years of careful experimenting were required in producing this unusual shade. It attracts the eye of everybody.

Plants only. Price \$5.00.

QUEEN ESTHER, No. 103. Color, "Du Barry," that dazzling new shade of red. An enormous, large, full flower and a beautiful rich color. The small twisting florets in the centre of this flower give it a most unique appearance. A wonderfully free blooming dahlia.

Price \$5.00.

POCAHONTAS, No. 69. Light cream yellow. This flower is very large with flat, broad petals except in the centre. Petals are flushed and veined deep pink, possessing some of the colorings of the Geisha. A very free bloomer and in every way desirable.

Price \$2.00.

POWHATAN, No. 101. Dark crushed strawberry. This very large flower is another of unusually fine shading. While it has the colorings of the crushed strawberry, it also possesses a light tint of lavender and the free-blooming qualities.

Price \$2.00.

RED CLOUD, No. 84. Rich deep carmine. This is a large full flower of a solid color and is borne in abundance on a plant of high growth.

Price \$2.00.

SAMOSET, No. 1007-1. Light yellow. Some of the petals of this flower are slightly shaded with pink, while the whole flower is full and of the true pæony type. Small curly petals on the face of this flower give it a very desirable effect. A very free-blooming variety.

Price \$2.00.

SQUANTO, No. 102. The color of this dahlia is hard to describe on paper. It is of a reddish violet, growing more red at the base of petals. The flower is large and makes a very showy plant by its free-blooming qualities.

Price \$2.00.

BLACK HAWK, No. 54. Deep velvety maroon. The darkest flower in the Indian family. The colorings are extremely rich and the flowers are large. The petals are broad and twisted to a point at tips. Is an extra free bloomer.

Price \$2.00.

CANONCHET, No. 66. An entirely new color shading on a grayish salmon. Petals are long and rolled to a point at tips. Slightly incurving. Small petals curled up around the yellow centre in very unique manner. This is a large flower and the long petals are dotted with slightly deeper small blotches of pink and suffused with a pale gold which glistens faintly.

Price \$2.00.

CANONICUS, No. 1036. Beautiful dark cerise. A very unusual shade and no other dahlia like it in shape and size has ever been produced. A large full flower.

Price \$2.00.

MASSASOIT, No. 1021. Variegated. This flower is very showy and attractive. Petals being a dark maroon heavily tipped with white give the flower the appearance of being about one third white and two thirds maroon shade. Not as large a flower as some of the other pæonies, but very attractive. Plants only.

Price \$2.00.

MINNEHAHA, No. 78. Light red. This is an extra large, heavy, full flower with broad petals which are slightly pointed and twisted at tips. The plant grows quite high and being a very free bloomer is one of the most showy dahlias of the "Indian Family."

Price \$2.00.

MINNEWAWA, No. 76. Bright cerise red. Base of petals yellow with white disk around the centre. Balance of petals heavily clouded and tipped white. Very striking combination of colorings.

Price \$2.00.

MISQUAMICUT, No. 1115. Golden yellow slightly tinged with pink. A very large full flower with very broad petals, and very desirable color.

Price \$2.00.

NARRAGANSETT, No. 1033. Rich shade of dark scarlet. This flower should be seen in order to be appreciated. It is large, finely formed, and a very full flower. It blooms very freely and has been a general favorite wherever exhibited.

Price \$2.00.

CANONCHET

NOKOMIS, No. 1112. Variegated yellow. The base of the flower is white and canary yellow mixed together. Heavily striped and speckled with dark red. A very striking large flower. The plants are of a low growth and flowers stand high above the foliage.

Price \$2.00.

NINIGRET, No. 151. Rich dark red, clouded and striped much lighter. The petals taper abruptly to a sharp point which is twisted in a very attractive manner. A full, heavy flower of unusual quality.

Price \$2.00.

UNCAS, No. 147. Pure white. A beautiful pure white, somewhat resembling South Pole, but petals more curly and twisted. A very unique shaped, free-blooming dahlia, and exceptionally desirable.

Price \$2.00.

WADAWANNOCK, No. 1034. Light coral. This is a large flower with broad, flat petals and with just enough twisting, curling petals in the centre to give it a nice pæony effect. This is an entirely new shade and one of those very effective and desirable colors seldom seen in the dahlia.

Price \$2.00.

Price of the above, one each of the whole set, plants where bulbs cannot be supplied\$40.00

ADDITIONAL NEW PÆONY-FLOWERED DAHLIAS FOR 1916

The following new pæony-flowered dahlias were all originated by me within the last three years, after the most expensive and exhaustive experimental trials.

This lot, and the preceding "Indian Family," can truthfully be termed the best and most wonderful collection of elegant mammoth pæony-flowered dahlias in America.

The whole lot is made up of the most unusual gorgeous colors ever brought out in dahlias.

Their superior merit has been amply recognized the past season by their receiving First Prize wherever I have shown a collection of my original varieties, namely: At the Dahlia Show of the New American Dahlia Society, held in New York City in September; at the New York State Fair, in September; the Connecticut Fair at Hartford, in September; at Kingston, R. I., in September; and at the Danbury (Conn.) Fair, in October.

ALICE JOYCE, No. 285. Color, crimson, with long, slim, rolled petals that stand upright in nice form and slightly tipped yellow. Small curly petals around centre of flower.

Price \$1.00.

ALLBEA, No. 92. Rich phlox. Very heavily clouded white at base of petals. Veins of white running through petals.

Price 35c.

AMBER QUEEN, No. 1120. Golden amber. Flowers are of good size and with quite broad, flat petals. A most desirable dahlia of fine form.

Price \$1.00.

ANNIAS, No. 340. Lavender cerise. One of the most desirable colors and nice form of flowers. Petals are numerous and rather slim and curly in centre. It is a good sized and attractive flower.

Price \$2.00.

ANNIE LAURIE, No. 60. Deep cerise. Petals slightly veined and clouded white. White at base of petals. A medium sized flower of a beautiful color and borne on long stems above the foliage.

Price \$1.00.

ANSEL BOURN, No. 354. Light lemon yellow shading to white at tips. A large flower and a very desirable color.

Price \$1.00.

ATTRACTION, No. 1032.. Light coral. A large flower and an entirely new color. A strong, thrifty grower, and one of the best and most attractive dahlias for cut flower purposes.

Price \$2.00.

AULD LANG SYNE, No. 1370. Purple. A very large flower of exquisite form. This dahlia should be seen to be fully appreciated.

Plants only. Price \$3.00.

AUNT BASHA, No. 296. Color, deep velvety maroon. Flowers very full and fluffy. Petals cup and roll the whole length with age. The most dazzling dark maroon flower yet seen. Splendid for cutting with long stems, and a good sized flower. Price \$1.00.

AUNT ELECTA, No. 1084. This new giant pæony-flowered dahlia, possesses the most beautiful colorings that can be imagined in a dahlia, being a light cerise and white blended together in such a manner that it makes the color scheme simply wonderful. The flowers are very large and are borne on long stems above the foliage. The plants are medium height, prolific, and have the desirable free-blooming qualities. Price, plants where bulbs cannot be supplied, each, \$3.00.

AUTUMN, No. 1017. Color, clear, light American Beauty. A large full flower with numerous petals which are quite pointed and twisted at tips. A very free bloomer and a most desirable flower. Price \$2.00.

AVANELLA, No. 284. Color, a beautiful shade of pink. A large flower, very full and compact. This dahlia won first prize for largest flower in the Hartford (Conn.) Show. The color and form of this dahlia is superb. Price \$5.00.

AVENUE MAID, No. 1040. Yellowish pink, centre changing to a pinkish red at ends of petals. Large size and a lovely flower. Price 35c.

BACHELOR, No. 1054. Jaconde is the exact shade of this beautiful dahlia. By some people it would be called purple. The curly, twisting feature of this dahlia is very pleasing. Price \$1.00.

BACHELOR GIRL, No. 56. Jaconde, or a shade of light purple. Occasionally the flowers are clouded and veined white. This plant has beautiful foliage and the flowers are an attractive color. Price 35c.

BETTY DUKANE, No. 286. Color, crimson and yellow. Petals long and incurved in a peculiar manner. A very nice color, and an attractive large flower. Price \$3.00.

BULL MOOSE, No. 338. Color, a beautiful shade of canary yellow. Outer petals slightly tinted pink. This is one of the very largest flowers of the

pæony type. It is an extremely full, deep, heavy flower, with a great quantity of long, slim, curly petals of a unique formation. This dahlia is a wonderful free bloomer, a most desirable one for any flower lover.

Plants only. Price \$5.00.

CORA L., No. 289. Color, a beautiful shade of light lavender. One of the most attractive colors for a dahlia. A large-sized flower of extra fine form. Price \$5.00.

CORAL BEAUTY, No. 1035. Clear coral. This wonderful new color for a dahlia attracted the attention of all who visited the garden. The petals of the flower are broad and heavy, and show well above the foliage. Price \$2.00.

DAVID HAREM, No. 1403. Beautiful shade of scarlet. Large flower and extremely bright. Of good form. Price \$1.00.

DECORATION, No. 1. A ring of canary yellow forms a sun-like centre for this very striking flower. And, like the rays of a brilliant sun, the remainder of the petals spread out into a beautiful bright cerise pink, very finely veined with a dainty pink, almost white. A very delicate touch of white at the tips of the pointed petals adds a pleasing finish to this altogether handsome flower that I consider one of my most attractive new pæonies.

Price \$1.00.

DELICACY, No. 153. Light cerise pink, clouded and heavily veined white. Medium sized flower, but very attractive and desirable. Price 50c.

DELICATE LADY, No. 46. Soft, delicate light cream. This new dahlia is a beauty. It is of the cactus-pæony type and one of the freest flowering dahlias in my collection. Price \$1.00.

DONALDA, No. 308. A beautiful shade of canary yellow. This is a large flower with long, slim, rolled petals, standing nearly upright. It is wonderfully attractive for the garden or exhibition table. Price \$2.00.

EVENING STAR, No. 250. Color, light cardinal red, heavily colored yellow at base of petals. Petals are flat, sharply pointed, and slightly tipped yellow. A medium sized flower, but a beautiful combination of colors and very attractive. Price \$1.00.

F. EARL JAMES, No. 242. Color, deep mottled cerise pink. This flower is very large and fine form. Petals are very curly and twisted and some turn backward. The whole flower is most beautiful and makes an exceedingly pleasing effect. **Price \$5.00.**

FIREBIRD, No. 1044. Bright scarlet. Large sized flower of a very desirable color and full form. One of the bright colors that attract everyone. **Price \$1.00.**

FIRE GIRL, No. 156. Bright scarlet with heavy circle around the centre of bright canary yellow. Petals are rolled and quite slim, sharp pointed and tipped yellow. Very showy and attractive. I was awarded a first-class certificate on this flower at N. Y. Horticultural Dahlia Show in 1914. **Price \$1.00.**

FIRESTONE, No. 370. Bright scarlet and slightly yellow at base of petals. The centre petals are curly and twisting. **Price 50c.**

FLOWERY KING, No. 1037. Purple cerise. Large flower with long, rolled petals, resembling somewhat a cactus pæony. Blooms very freely. **Price 50c.**

FORD STERLING, No. 1389. Very light pink with dashes of deep pink. This flower is a most desirable one. **Price \$1.00.**

FRIZZY, No. 261. Color, white and cerise blended together, with yellow at base. Petals are slim, numerous, and twisted. The flower is of medium size, but attractive. **Price 50c.**

GEORGE WOLFE, No. 1398. Color, canary and gold with shadings of cerise. **Price 50c.**

GENERAL BOOTH, No. 1368. Beautiful shade of light purple. This flower is a most attractive one either for house or garden decorations. **Plants only. Price \$2.00.**

GENERAL JOHNSON, No. 36. Velvety cardinal. Some petals have a stripe of yellow running whole length of them. Toward the last of the season the yellow shows more prominently. One of these flowers won second prize in Hartford, Conn., 1913, as largest flower in the show. **Price \$1.50.**

GOLDEN GIRAFFE, No. 238. Color, clear canary yellow with reverse side of petals shaded cerise. Petals are long and slim, resembling a cactus pæony, and are twisted and curled in a unique manner. Tall, thrifty growing, large dahlias, and a great producer of flowers of very large size. **Plants only. Price \$5.00.**

GOODYEAR, No. 1114. Velvety deep cardinal. Medium sized flowers. Very desirable. Petals broad and flat with small twisting petals in centre, giving it the desirable pæony style. **Price 35c.**

G. H. JAMES, No. 263. Color, light cream with a very waxy appearance, while the reverse side of the petals is clouded cerise. Petals are broad and flat and taper abruptly at ends to a sharp point. This is one of the most unique beauties of the whole dahlia family. **Price \$5.00.**

HARRIET HUBBARD, No. 366. Deep pink with a slight shade of lavender. Petals rather slim and twisting and curly around centre. The flower is large and one of those most desirable colors for a dahlia. **Plants only. Price \$5.00.**

HARRY LAUDER, No. 287. Color, light lemon yellow. Heavy petals and somewhat cupped at the base. A very clean, beautiful shade. **Price \$1.00.**

JACK DILLON, No. 399. Bright cardinal with a large circle of canary yellow around the centre. The petals are slim, very curly, twisting, and very numerous. Very attractive. **Plants only. Price \$2.00.**

JEAN ANDERSON, No. 1118. Salmon buff slightly clouded with deep yellow. The style of this flower is very unique with its small twisting petals around the centre and the curly features of the large ones. One of the entirely new shades. **Price \$3.00.**

JIM DANDY, No. 117. Very rich velvety magenta. Base of petals are yellow and white, forming a circle 1½ inches in diameter. The petals are sharp, pointed, and heavily tipped and veined with white. The brightest combination of colors imaginable. **Price \$1.00.**

JOHN BROWNING, No. 343. Color, light canary, somewhat lighter at tips. A striking, extra fine and very full flower. **Price \$1.00.**

JOHN HENRI, No. 1121. Light velvety maroon. Petals very numerous and claw-shaped with small curly ones in centre. Cactus pæony type. A beautiful flower. Price 35c.

JOHN WILBUR, No. 342. Purple magenta. This is a flower of rather peculiar formation. When beginning to bloom it has the effect of a giant narcissus, and later it makes a fuller flower. Price \$1.00.

KRAZY KATS, No. 82. Deep carmine. Each petal heavily tipped white. Some of the petals are curled in a crazy manner. Plants only. Price 50c.

LADY ALWAYS, No. 1401. Beautiful shade of light purple. A very large, fluffy, full flower and very desirable. Plants only. Price \$2.00.

LADY LOVE, No. 63. Beautiful shade of pink, slightly specked with white. A very striking favorite shade. Flowers are nearly a cactus pæony type and make a beautiful cut flower decoration. Price 50c.

C. N. LANGDON, No. 292. Color, old gold or bronzy yellow. A very large flower of a beautiful type. The petals are very long and slim and incurved to a nearly upright position. A most attractive form and color. Price \$2.00.

LEADING LADY, No. 107. Back rows of petals are a beautiful light cerise and are tipped and veined white, while the petals of the balance of the flower are tipped cerise and clouded white to the base. A wonderfully attractive combination. Price \$1.00.

LOS ANGELES, No. 245. Color, white heavily clouded cerise. Some of the petals almost white. The flower is large and has broad, flat petals, giving it a very decorative effect. A beauty. Plants only. Price \$2.00.

LOVELINESS, No. 51. White with about half of the petals bright cerise. There are heavy veins of white running through the whole length of petals. A most beautiful combination. Plants only. Price \$2.00.

LUSITANIA, No. 291. Color, rose pink. The numerous long slim petals are rolled enough to give them a very slim appearance, and stand out, forming large, attractive flowers. Plants only. Price \$3.00.

MAE JAMES, No. 179. Light cerise. Tips of petals clouded white. Extremely beautiful. Reverse side of petals are nearly white clouded cerise. Very attractive flower. Price \$2.00.

MARGUERITE CLARK, No. 248. Color, very light cream on face of petals which are curled and twisted in fine shape. The reverse side of petals is heavily clouded cerise pink, which gives the flower a beautiful variation of colors. Large size. Plants only. Price \$5.00.

MAUD TRIPP, No. 250-D. The color and shape of this dahlia are both novel. The flower is very large, with long, slim, rolled petals, standing up and incurved in a pleasing manner. The color is a purple lavender with lines of yellow whole length of petals. The flowers vary somewhat in shade. Plants only. Price \$3.00.

MILADY, No. 68. Very light garnet shading. Petals lighter at base, shading to dark violet at tips. Large, attractive flower. Price 50c.

MRS. ROCKWELL, No. 1048. Deep rich cardinal. A large flower of an unusually rich color. This dahlia should be seen to be appreciated. The flowers are borne on good stems well above the foliage and are very showy and attractive. Price \$2.00.

MRS. STILLMAN, No. 218. Color, a beautiful shade of pink. One of the most exquisite shades of pink in the dahlia family. The flower is of large size, and is made up of very long, slim, incurving petals that stand up in a most attractive manner. The color of this dahlia is pleasing to every one. Plants only. Price \$5.00.

NORA BELLE, No. 18. Very light yellow, heavily clouded cerise. Petals curl backward and very much twisted. Price \$1.00.

OLD TRAVELER, No. 1047. Color something on the shade of dark violet. A hard color to describe. Has been called a blue cerise. Large free bloomer. Price \$2.00.

OLD GRISLEY, No. 61. Crushed strawberry, cerise and yellow blended together about equally, but cerise and strawberry show more prominently. Petals quite slim and somewhat twisted. Price 50c.

LOVELINESS

PHILIPPA, No. 116-2. Color, a golden yellow, veined and clouded red. A very free blooming variety. Price 50c.

PRINCESS OF PATCHES, No. 1050. Light cardinal, medium sized flowers borne on long stems. Occasionally the flowers show from one to four white petals. Price 35c.

PRISCILLA, No. 105. Ground color, dark American Beauty. Large, broad petals with sharp tips. Some of the petals are clouded dark maroon, while other petals are shaded to light cerise at tips. Some are thickly mottled white. Small centre petals are curled and twisted in a unique manner. Price 50c.

QUEEN ANNE, No. 1028. Color, very rich dark maroon. The petals are incurving and present a fine appearance. Price 75c.

RED BANK, No. 80. Color, bright light carmine. Petals heavy and slightly twisted. Extra good. Price 35c.

RED ROVER, No. 172. Dark cardinal. Each petal has the appearance of being thickly striped with a darker shade. Faint stripes of yellow are occasionally seen in this flower and the small curly petals in the centre give it a fine appearance. Price 50c.

REINETTE, No. 358. Magenta and white beautifully blended together. Two heavy veins of white run whole length of petals. Base slightly tinted yellow. Price \$1.00.

RICHNESS, No. 159. Dark velvety magenta with veins of lighter shade lengthwise of the petals. A rich color that is very pleasing. Price 75c.

ROSE QUEEN, No. 91. Rose and cerise, shading to white in centre and more or less overspread with white. Closely resembles Mad. J. Coizard in color. Price 50c.

RUBY STONE, No. 13. Bright velvety magenta. Petals slightly shaded brighter at base and heavily tipped white, making a beautiful combination. Price \$2.00.

SACHEM, No. 000. A new attraction in the pæony class. A slight touch of bright yellow streaks up from the centre, running into the very dark velvety cerise petals in an effective manner.

The very tips have a light bluish cerise caste. The backs of petals are streaked with cerise and bluish white, curling over tips in a pleasing effect. A good sized flower and good bloomer. Price \$1.00.

SALMON MAID, No. 6. Crushed strawberry and dull salmon. Odd combination of colors. Low bushy plant and very free flowering. Price 50c.

SCARLET LADY, No. 116. Bright deep scarlet. A medium flower of very changeable colors of scarlet and yellow. Fine stems and one of the best for cut flowers. Price 50c.

SCARLET RIBBON, No. 58. A circle of canary yellow forms the bright centre of this flower. The balance of petals shade into a light orange, overcast slightly with a pleasing shade of light scarlet. A very odd combination, good sized flowers, very attractive and desirable. Price \$1.00.

SHOW GIRL, No. 1006. Yellow and cerise. Base of petals yellow. Balance light cerise shading to white at tips. Two veins of white run lengthwise through petals. It is a profuse bloomer and flowers are borne on extra long stems. Price 50c.

SIR GALAHAD, No. 346. Carmine, heavily blended with bronze yellow. The combination of colors in this flower is very striking. It might well be termed a "Brindle Giant Curio." Plants only. Price \$3.00.

STRAWBERRY, No. 79. Crushed strawberry. Fair sized flower and a very unusual color. Centre petals are nicely twisted, giving it a good pæony shape. Price 35c.

SUMMER, No. 108. Beautiful canary yellow. A large flat flower with broad petals. A fine color and very free flowering. Price 50c.

TANGO GIRL, No. 122. A new shade, blending to brownish orange, or tango and paradise. An extremely and entirely new color and admired by all. Price \$2.00.

THE CAMELION, 123. Deep ruby red, shading to dark cerise at tips. Flowers have broad flat petals of changeable shades. All the shades are very rich and velvety. A fine flower. Price 50c.

THE PINK LADY, No. 30. A lovely shade of clear pink. Flowers are medium size and borne on long stems. A fine cut flower variety. **Price \$1.00.**

THOMY THOMPSON, No. 239. Color, a shaded golden salmon. A large, beautifully formed flower with long, slim, curly petals. It is a very large, full, deep flower, and of unusual quality. **Price \$5.00.**

TIPPERARY, No. 1320. A pretty, light rose with amber in centre of petals. Flowers somewhat irregular in color. **Price \$1.00.**

VERNA THOMPSON, No. 77. White, heavily clouded cerise. This immense, large new pæony dahlia is a beauty beyond all doubt. It closely resembles Aunt Electa in color, but somewhat different in shape. A very full deep flower. **Price \$3.00.**

VICTOR HERBERT, No. 1302. Purple. Petals quite long and slim and of a perpendicular shape, also incurving. A fine flower. **Price \$5.00.**

WHITE CAP, No. 318. Pure white with broad, flat petals of a glittering appearance. This dahlia is large and

possesses qualities of great merit for house decorations, in bunches or vases. **Price \$2.00.**

WHITE LADY, No. 55. Pure silvery white. This new dahlia is of the cactus-pæony type and almost an exact duplicate of "Delicate Lady," except the color. Usually a bouquet of pure white dahlias is not effectual or particularly attractive, but this variety alone, or mixed with the "Delicate Lady," makes a most strikingly pleasing effect. **Price \$1.00.**

WILLIAM TELL, No. 22. Combination of light and dark pink. The centre of the petal is heavily clouded canary yellow. The petals are long, slim and twisted. Small petals around centre quite curly. Good size and desirable color. **Price 50c.**

YELLOW EMPRESS, No. 300. An elegant shade of deep canary yellow. A wonderful flower of enormous size. The color of this flower is superb and the formation exquisite. In size nothing has ever been produced in this shade of yellow to equal it. It can justly be called a wonderful production. **Plants only. Price \$5.00.**

NEW DUPLEX OR SEMI-PÆONY FLOWERED DAHLIAS FOR 1916

This is an entirely new, and much needed, classification for a general favorite type of dahlia. See dahlia classification on another page.

These dahlias are not an extremely large flower, but just the right size for cut-flower decoration, and they possess the most beautiful combination of colors imaginable.

The following are all new varieties of my own origin:

ADELAIDA, No. 10. Bright cerise red. Petals tipped with yellow and yellow around base with two narrow stripes of yellow through centre. Price 50c.

ALEMEDA, No. 44. Deep crimson magenta. Veined and shaded white. Lighter at base and tips of petals. Medium size flowers and fine for cutting. Price 50c.

ALGOMA, No. 1049. Bright garnet. Extra large flowers and a beautiful bright color. Price 50c.

ALTADENA, No. 145. Cerise and white, clouded and mixed together. After the colorings of Mosel. A fine specimen for cutting. Price 35c.

AROMAS, No. 1075. Dark carmine. Very large flower and a beautiful color. Price 50c.

AUKUM, No. 1073. Light pink. A very good cut flower dahlia of medium size and with free-blooming qualities. Price 35c.

BELLE OF THE BALL, No. 246. Color a very bright cerise. Petals shaded yellow at base and veined and tipped white. Reverse side of petals nearly white. An unusually fine dahlia for house decoration. Price \$1.00.

BEN HUR, No. 310. Scarlet with yellow circle around disc. Petals slightly tipped yellow. Two veins of yellow run lengthwise of petals. Plants only. Price \$2.00.

BODEGA, No. 1095. Pure white. A large flower and waxy white. Price 35c.

BONNY DOON, No. 1085. Dark red with yellow centre. An extra large flower of the semi-single class. Price 50c.

BULAH, No. 1102. White tinted pink. A large flower with occasional striping of lighter pink. Price 35c.

BUSTER BROWN, No. 70. Beautiful shade of canary yellow. This is an immense large flower of unusual qualities. The flowers measure 7 to 8 inches in diameter and have heavy, broad petals, slightly streaked with carmine and borne on extra long stems that are very stout. It is simply a wonderful flower. Price \$1.00.

CHARLES CHAPLIN, No. 1312. White, splashed and striped purplish red. A beautiful combination of colors. Plants only. Price 50c.

GOLDEN CROWN, No. 247. Color, a rich deep shade of cream. This is a very showy flower. The petals are broad and some are twisted at centre. Being shaded red on reverse side gives the flower a pleasing appearance. Price \$1.00.

MARIA WHITE, No. 19. Color, magenta, heavily blended white at tips. The petals are occasionally heavily veined white. Price 50c.

MONA, No. 393. The color of this dahlia is rather unique, being, as near as can be judged, a light crushed strawberry. Medium sized flower and a very desirable shade. Very free bloomer. Price 50c.

MRS. WIGGS, No. 309. Very light salmon pink shading to canary at base. One of the most desirable flowers for decorations. Color most desirable. Price \$1.00.

PEGGY LUNDEEN, No. 138. Color, slightly yellow, base of petals encircled with white. Then the petals are cerise tipped and clouded white. Beautiful colorings. Price 25c.

RAY COX, No. 1315. Dark velvety maroon. A rich color and a free bloomer. Price 50c.

RUTH MILLER, No. 328. The color of this flower varies somewhat from a clouded bronzy red to yellow and red. The petals are broad and flat, and yellow at base. They taper abruptly to a sharp point at outer ends, giving the flower the appearance of a glistening star. Price \$1.00.

SEARCHLIGHT, No. 96. Bright fiery scarlet. Centre surrounded by heavy canary yellow disc. The broad, flat petals are pointed and tipped yellow. The New York Horticultural Society awarded me a first-class certificate on this dahlia. Price \$1.00.

SONG BIRD, No. 304. White with faint lines of yellow, and shaded yellow at centre. A fine dahlia for decoration. Price 50c.

STARLIGHT, No. 1029. Very bright fiery scarlet. Petals of this flower are broad and flat, giving it a decided "Starlight" effect. A wonderfully bright, flashy color. Price 75c.

VIOLA DANA, No. 1030. Color, very dark maroon, nearly black. Price 50c.

NEW DECORATIVE DAHLIAS FOR 1916

GIANT GEYSER, No. 1393. Dark velvety maroon. The largest dahlia of this color in the decorative family. A wonderful flower and the color is simply magnificent.

Plants only. Price \$5.00.

GLADYS L., No. 1018. Rich, soft shade of light magenta. A very heavy, deep flower on long stems. Each petal is deeply serrated at tips. One of the finest decoratives. Price, \$1.50.

KING ARTHUR, No. 307. A rich garnet red, solid color. This flower when beginning to bloom somewhat resembles a narcissus, as the outer petals open usually about a day before the others begin to unfold. It is of large size and a beautiful decorative shape with extra good stems. For richness of coloring this dahlia is seldom equalled.

Price \$2.00.

LADY CLAIRE, No. 281. An entirely new beautiful decorative dahlia. Color, light scarlet, heavily tipped and veined yellow. This flower is very deep and large, of a pyramid shape. The petals are quite broad and flat and the great contrast in coloring makes this a most attractive dahlia.

Plants only. Price \$5.00.

LADY HELEN, No. 217. A beautiful decorative dahlia as distinctly new in quality and excellence as in origin; standing erect on long stems with finely formed and curled petals spreading out, making a diameter varying from 7½ to 8½ inches. It is a striking and beautifully toned cerise in the

main body coloring, with slight veins of white, almost cream, running through the petals. Prominent cream tips make a decidedly new and altogether forcible addition to the whole flower. The dahlia should be seen to be fully appreciated, for words of pen cannot do it justice. The front cover will give you an idea of its beauty and length of stem for cut-flower purposes. You will note that the stems vary from 3 to 3½ feet in length, with a slight foliage at two or three joints in this length. A profuse bloomer. Plants only. Price \$5.00.

MILLBANK, No. 305. Light lavender, shaded darker at tips. A beautiful shade and a fine flower for cutting. Price 50c.

MONGOLIAN, No. 1092. Very dark maroon. Nearly black. Medium sized flower and a very free flowering dahlia. Price 25c.

MT. SHASTA, No. 268. Light pink. Petals long and slim and sharply rolled at points. An extra fine full deep flower and enormous size. This flower when grown to perfection is simply a wonder in color, shape and size. Plants only. Price \$5.00.

OWEENEE, No. 1117. Variegated cerise and white. This flower is of very delicate coloring, petals being fine and very numerous. They are splashed and clouded with light cerise and white. One of those very desirable light shades. Price \$2.00.

NEW COLLARETTE DAHLIAS FOR 1916

ANNETTE, No. 271. Color, yellow at base of petals, balance of petals cerise shading to white at tips. The collar is nearly white with cerise shadings.

Price 50c.

BILLY SPEAR, No. 1381. This is the most novel shade of collarette ever originated. The main part of the flower is a peach flesh color. Though the flower is not large it is most exquisite. The dainty collar is nearly white. Plants only. Price \$1.00.

COLOR BLENDER, No. 128. Base of petals yellow for a quarter of an inch. Outer rim of petals from base to tips yellowish cream. The entire centre of the petals is a bright crimson. In some of the flowers the crimson covers the entire petals, only the rim is a shade lighter. The most beautiful collarette known. Free flowering.

Plants only. Price \$1.00.

GRACE LORETTA, No. 272. A very rich purple magenta with a nearly white collar. The very richest color of any of the collarettes and the flower is of good size.

Price \$1.00.

GREYHOUND, No. 1027. Color a combination of salmon, copper and brown. A very unusual, odd color. Large flower with broad, flat petals. A faint collarette, of a lighter shade, surrounds the centre.

Price 50c.

GWYNN, No. 45. Deep carmine petals, each one is serrated at tip. Tipped slightly with yellow. Light canary yellow collarette.

Price 50c.

HEATHERBELLE, No. 130. Yellow, centre is surrounded by collarette of yellow faintly tipped white.

Price 50c.

JUMBO, No. 126. Deep scarlet with shadings of yellow overspreading the flower. The collar petals are quite long and red and yellow in color. The largest collarette.

Price 50c.

MONS. POIRIER, No. 274. Color, cerise and white. Yellow at base of petals, cerise in centre of petals, shaded to white at tips. Fine veins of white run lengthwise in petals.

Price 50c.

PEGGY O'NEIL, No. 1413. Deep ruby, shading lighter at tips of petals. Collar white with fine veins of ruby red. One of the finest.

Plants only. Price 50c.

THE PEACH, No. 1123. Amber and red veined and striped. White collar.

Price 25c.

WHITE PRIZE, No. 81. Pure white with small white collar. The first pure white collarette originated in this country. A strong growing plant and a profuse bloomer.

Price 25c.

WILDA, No. 1397. Clear light purple or jacond. Base of petals yellow; a very striking contrast of colors.

Price 50c.

YELLOW PRIZE, No. 133. Light canary yellow. Some of the flowers have blotches of red at base of petals. The collar is yellow and white blended together. This dahlia has a most beautiful foliage for decoration and is a free bloomer.

Price 50c.

NEW SHOW DAHLIAS FOR 1916

BUDD FISHER, No. 384. Hybrid Show. Color, deep striking carmine. A very rich, desirable color. Petals are quite pointed at the very tips.

Plants only. Price \$2.00.

FRANK MALLON, No. 202. Color, deep butter yellow slightly veined light red. One of the freest blooming dahlias and good size.

Price 50c.

MIRIAM COOPER, No. 381. Light canary yellow, slightly overcast with pink. Reverse side of petals heavily clouded pink. A large-sized flower and a good form.

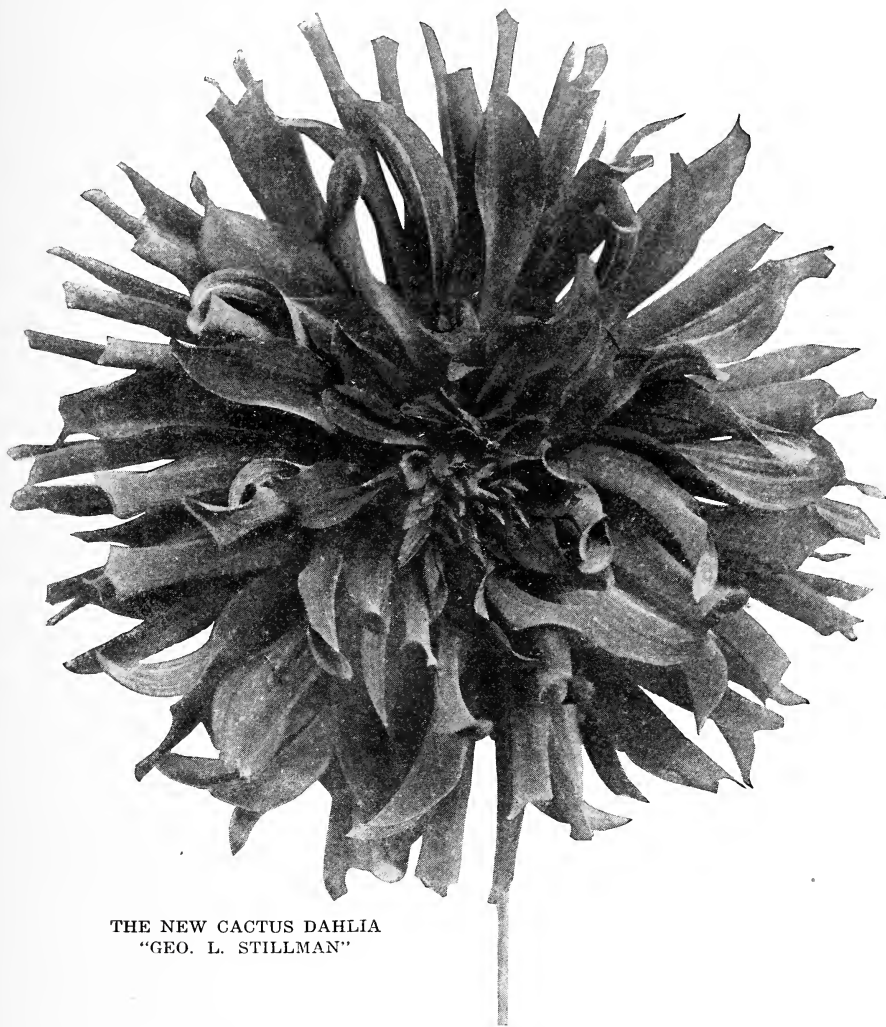

Price \$1.50.

OX BLOOD, No. 210. A very clear red. Very large show dahlias on extra long stems, like "Le Colosse," and a trifle darker shade.

Plants only. Price \$1.00.

NEW SINGLE DAHLIAS FOR 1916

- BLUSHING BOY, No. 1096.** Very dark maroon. Centre of petals and tips pure white. Occasionally some of the petals come solid dark maroon. A striking combination. Price 50c.
- CHANTECLER, No. 1366.** Color, cinnamon faintly streaked with gold. A very striking color. Price 50c.
- COLOR CARD, No. 1116.** A dahlia of many colors and shades, having yellow, red, pink and amber, in very attractive shadings. Price 50c.
- FANG de CHARMER, No. 1097.** Clouded pink. This is the most peculiarly marked dahlia that has ever come under my observation. The tip of each petal is serrated in a diamond shape. At the base of the diamond are two fangs with sharp points, hence, the name "Charmer." One of the most profuse flowering single dahlias in my collection. Price 50c.
- IMPERIAL ELEPHANT, No. 396.** The largest and most wonderful single dahlia ever originated. The color of this monster is most beautiful. There is a circle of canary yellow around the centre which is 2 inches wide. Then the petals are a bright cardinal and clouded yellow at tips. The flower measures from 7 to 9 inches in diameter, with very broad, flat petals. The plant makes a heavy, stout growth of medium height.
Price, Plants,
only a limited number, \$5.00.
- JEWELL, No. 118.** A beautiful shade of pink. Broad, flat petals; long, branching stems. One of the finest of singles. Price 35c.
- LOTUS GIRL, No. 1099.** Light lotus pink. An extra large flower of an unusual size. A beauty. Price 25c.
- MAGNIFICENT, No. 1007-2.** Dark cerise with two veins of white running through the centre of the petals. This is one of the largest and most perfect single dahlias grown. The petals are broad and flat, of a thick texture. The flowers are perfectly flat, and stand very erect on long, stout stems above the foliage. It is truly magnificent. Price 50c.
- MOLLY LEE, No. 1080.** Very dark maroon. A very rich, velvety shade and an extra fine dahlia. Price 25c.
- NIOBE, No. 24.** Color, fawn, slightly shaded pink. A very attractive, desirable color.
Plants only. Price \$1.00.
- OX EYE, No. 1086.** Carmine with yellow base. Has the appearance of the ox eye. Price 25c.
- POLLY, No. 121.** White flushed with pink. Tips of petals serrated. A good single. Price 25c.
- PRINCE OF YELLOWS, No. 142-2.** Color, a beautiful, rich canary yellow. Petals broad and flat. Price 25c.
- RADIANCE, No. 1014.** Deep, rich magenta, tipped white. One of the richest colors in the singles. Price 50c.
- RADIANT CHARMING, No. 161.** Cerise, heavily veined and tipped white. A very large single dahlia. Price 50c.
- RED EAGLE, No. 144.** Deep cardinal. Solid color, of large size, and very free blooming flower. Price 50c.
- SINGLE JANE, No. 21.** Deep velvety magenta with a shading of white and yellow at base of petals and a blending of white at tips. A fine combination. Extra long stems. Price 50c.
- SIR GILBERT PARKER, No. 1109.** Color, golden amber, heavily shaded orange and amber. An extra good single and large size. Price \$1.00.
- STAR OF THE EAST, No. 1103.** Magenta. Yellow at base, edges and tips clouded white. Price 50c.
- SUSIE, No. 1081.** Single dahlia of a pleasing shade of rather dark velvety magenta with one to two faint streaks of light shade running through petals. Price 35c.
- WHITE ELEPHANT, No. 29.** Pure white. This extra large flower is a wonder. The first flowers on these plants in my fields measured 7½ inches in diameter. It is an extra free flowering variety, and should be disbudded heavily to retain size. Price 50c.

THE NEW CACTUS DAHLIA
"GEO. L. STILLMAN"

CACTUS DAHLIAS

ALPHONSE ISORE. Centre of this dahlia is a blackish red, outer petals shading lighter toward tips. Good, strong stems supporting this very handsome, dark red dahlia. Some petals slightly streaked with purplish scarlet. Price 25c.

ATALANTA. Almost white, softly shaded with lavender. Blossoms somewhat resemble the cactus variety. Flowers freely. Price 15c.

AUGUSTA WEBER. A golden yellow of good form. Very pleasing. Price 15c.

BEAUTE LYONNAISE. White, edged red; grand flower, perfect form. Price 20c.

CALIFORNIA. A beautiful bright rose pink. An extra good dahlia. Price 50c.

CLARABEL. A deep, brilliant shade of reddish purple. Flowers borne on long, stiff stems. Extremely attractive. Price 10c.

CHIEFTAIN. Clear light red heavily streaked and splashed canary yellow. Some of the flowers come clear red. Very large and attractive flower. Price \$2.00.

DELICE. Dark rosy pink. This flower is much admired because of its striking color, which is distinctly different from any other dahlia. Extremely beautiful and has long stems. Price 25c.

DOROTHY MAY. An attractive light pink of good size. A very desirable color and free bloomer. Price 25c.

ESMERELDA. White ground, with pinkish-violet petals. A fine combination of colors. Price 10c.

FREDERICK SPITAL. Terra cotta red and velvety vermillion suffused and tipped. A very attractive dahlia. Price 15c.

GETTYSBURG. A heavy flower of bright deep vermillion scarlet. Price 20c.

GIANT PURPLE. The inner rows of petals of this beautiful dahlia are deep rich magenta, tipped lighter shade of magenta. The very outside rows are a trifle lighter shade, tipped lighter magenta. Price 75c.

GLORY OF WILTS. Extra large, beautiful blossoms. Color clear bright yellow. Price 50c.

HELEN CHARVET. Pure white with an occasional tint of pink. Of enormous size. Florets very broad. Excellent for decoration. Very attractive. Price 20c.

HIMMLICHE. Bluish lavender of an almost indescribable shade. This is undoubtedly one of the oddest dahlias grown, on account of its peculiar pinkish color. Very desirable as a novelty. Price 10c.

HORTULANUS WITTE. A very nice white decorative dahlia. Price 35c.

JACK ROSE. Brilliant crimson red, similar in shade to the popular "Jack Rose," which suggested its name; perfect for garden decoration or for cutting. Price 15c.

- JACQUES WELKIN.** Color deep pink, with the outer edge of petals a trifle deeper than the centre. A very pretty dahlia with a very few blotches of white on the pink petals. Price 25c.
- LE GRAND MANITOU.** Ground color pale pink, striped, spotted and blotched with deep reddish violet. Borne on stout, stiff stems, held well above the foliage. Price 50c.
- LE GEANT.** Enormous, bright, velvety red flowers, borne on straight stems. A particularly handsome and very large dahlia. Price 75c.
- LES ALLIES.** Variegated. Groundwork white, striped and splashed with vivid scarlet. Of good size and very striking. Price 25c.
- LYON COMSTOCK.** Orange fawn, of medium size and very desirable. Price 10c.
- MAD. BUREL.** A delicate shade of light pink, striped and spotted blood red. Petals slightly curled. Large blossoms borne on long, stiff stems. Very desirable. Price 35c.
- MAD. JEANE CHARMET.** One of the best decorative dahlias yet produced. Soft light pink. Large flowers, borne on long, graceful stems. Free bloomer. Price 25c.
- MAD. VAN DEN DAEL.** Delicate silvery pink, fading to a creamy white in centre. Broad, perfect petals. An exceedingly attractive and beautiful dahlia. Price 20c.
- MAD. L. TILLIER.** Deep salmon, shaded down to light yellow at tips. A beautiful combination of colors. Price 20c.
- MAD. LOUIS HARRIOT.** Large, beautiful yellow. One of those clear, light yellows that are so attractive in a dahlia. Much the same shade as "Mrs. Chas. Turner." Try one and see if you are not satisfied that it is both large and beautiful. Price 50c.
- MAD. A. NONIN.** Base of petals white, tips light lavender. Very pretty. Price 35c.
- MAID OF KENT.** Rich cherry red, splashed and blotched with pure white. A variegated dahlia with unusually peculiar markings. The centre half of some of the flowers is white, while the other half is rich ruby red. Attractive. Price 10c.
- MAJESTIC.** Brilliant scarlet, borne on long stems, making it a valuable variety for decorating purposes. Each broad petal is deeply notched. An unusual and beautiful dahlia. Price 35c.
- MAMMOTH.** Like its name, it is of mammoth size, deep blood red color, some of petals slightly tipped lighter red at extreme point. A beautiful specimen. Price 75c.
- MANITOU.** An immense amber bronze colored blossom. Has a distinct shading of pink; is extra large and full, and unusually desirable. An excellent dahlia, well worth adding to your collection. Price \$1.00.
- MARCHIONESS OF BUTE.** Pure white with slight tint of pink. An effective contrast of color very pleasing in appearance. Medium size. Price 10c.
- MILDRED SLOCOMBE.** A beautiful shade of pink. A very large, full flower of unusual beauty. Price \$2.00.
- MINNIE BURGLE.** Deep scarlet, solid color. A large flower of fine form and a beautiful, rich, bright color. A fine flower. Price 75c.
- MINOS.** Rich, velvety maroon. Flowers are large and very beautiful, and are borne on long, stiff stems. The petals look like satin, and to look into the heart of the flower it appears to be a velvety black. A thoroughly handsome dahlia. Price 10c.
- MLLE. MARGUERITE DES BLANC.** White. Very large, full, fluffy flower of clear white. An elegant variety and extremely desirable. Price 50c.
- MLLE. MARIE HOSTE.** Dark, glowing pink, each petal tinted magenta. Large, full flower. Strikingly beautiful in appearance. Price 25c.
- MME. VICTOR VASSAIRE.** Clear, beautiful yellow. If you wish to secure a handsome dahlia, now is the time. This is a large and perfectly formed decorative dahlia. A yellow beauty. Price 35c.
- MONS. BUREL.** Dark apricot yellow in centre, shading lighter toward edge of petals, which are faintly lined and dotted with dark apricot. Large blossoms borne on good straight stems. A handsome variety. Price 25c.
- MRS. GEORGE REED.** White, deeply tipped pink. Edge of petals evenly notched. Good size. Flowers freely. Price 15c.

MRS. ROOSEVELT. Delicate light pink, shading to soft rose toward the centre. An exceptionally large and elegantly formed flower, measuring from 5 to 7 inches across. Greatly admired by all. Large, strong stems. Abundant bloomer. Price 25c.

OBAN. Mauve, shaded to fawn. This is a very odd shade for a dahlia, but also very attractive. When cut for bouquets of solid color, this dahlia presents an exquisitely effective appearance. The flowers should be seen to be appreciated. At the price at which this dahlia is sold, all lovers of flowers should have a good supply of them. Price 10c.

ORIENTALIS. Beautiful violet color, shading to white. Flowers very large and attractive. Price 20c.

PAPA CHARMET. A magnificent large flower of a deep, velvety coral red, overlaid with a much darker shade, giving the flower a rich crimson-maroon effect. The very best decorative dahlia of its color. Price 35c.

PAPA TREYVE. Brilliant orange scarlet; large flowers in great abundance on rather dwarf plants. Price 35c.

PAPA VICTOR. A beautiful clear purple blossom, with petals shading lighter at tips. Yellow centre. A very handsome flower. Price 20c.

PRINCESS JULIANA. Pure white, and of good form. This dahlia is unsurpassed for decorative purposes, having long, strong stems. Of special merit. Price 35c.

PROF. MANSFIELD. A remarkably large variegated dahlia. Flowers grow from 7 to 8 inches across and are of sparkling yellow, with clear white tips. A tinge of rosy red is noticeable toward the centre. This peculiar com-

bination of colors makes an exceptionally attractive flower. Strong growth and free bloomer. Price 15c.

ROYAL SCARLET. Color is aptly described by its name. Petals are flat and sharply pointed. Price 50c.

RUTH FORBES. A beautiful clear pink. Extra nice. Price 15c.

SAPHO. White, slightly shaded pink. Price 10c.

SOUVENIR De GUSTAVE DOUZON. This is a decided novelty because of its gigantic size, closely resembling the sunflower in this respect. It is the largest decorative dahlia grown. Color is a pleasing orange red. On account of its extraordinary size and elegance of form and color, this is a very attractive dahlia. Flowers full to centre and often measures 9 inches in diameter. Price 15c.

THOMPSONII. Solid light red; of good form and size and very desirable for cut flowers. Price 35c.

VILLE De LYON. Very large white flowers, flushed with pink, having quilled petals. Extra good. Price 25c.

WM. PALMER. An immense salmon red dahlia. A splendid acquisition to any one's collection. Very good. Price 50c.

YELLOW COLOSSE. Bright canary yellow. A large, beautifully formed flower, resembling Yellow Le Colosse, except that the petals are not quite as flat. Price 25c.

YELLOW QUEEN. Entirely new. A beautiful shade of yellow. Good size and fine florets perfectly formed. This dahlia has a wonderful centre, which never fully opens during the life of the flower. Price 10c.

I often receive inquiries from my customers for a magazine that will give them authoritative information on gardening. I always recommend *The Garden Magazine*, which is published monthly. The subscription price is \$1.50 per year.

If you send me \$1.75 I will include one bulb of the Mme. J. Coissard with the subscription.

This dahlia, described on page 38, is one of the best and most beautiful dahlias for cut flower purposes.

PÆONY-FLOWERED DAHLIAS

I prepay carriage on all retail orders, accompanied by cash in full, in the United States. This does not apply to Special Offers

ANDREW CARNEGIE. Salmon pink with bronze shading. Flowers of peculiar form on stiff stems. Price 25c.

ANNIE SLOCOMBE. Another new and choice pæony-flowered dahlia with a diameter measuring from $7\frac{1}{2}$ to 8 inches. Its face is entirely of a bright, pleasing canary yellow, but the entire back of the petals is covered with a dulled shade of salmon red streaked with the yellow of the face. It is very striking and when held to view one might think it was tipped salmon red for some of the petals turn at the points, showing the back coloring. It is on long stems, good for cutting. An extra nice variety. Price \$2.00.

CAECILIA. Creamy white; very large. A splendid variety. Price 50c.

DR. PEARY. Dark velvet mahogany red, the darkest of all. A very large dahlia, and certainly a beautiful one. Price 75c.

GEISHA. Yellow and red. A most wonderful dahlia. If you love gorgeous coloring, here you will find it in the orange, red and yellow of this mammoth flower. Geisha flowers are held aloft on long stems in a stately manner, befitting their glorious coloring. Price 50c.

GLENTON. Color, mauve fawn. Of good size and very desirable.

Price 35c.

H. J. LOVINCK. White shaded lilac, very fine form on long stems. A large and beautiful dahlia. Price 50c.

DAHLIA STAKES

As many of my customers make inquiries of me as to where they may obtain strong dahlia stakes, I have arranged to furnish a **good, strong, HARDWOOD Stake**, 1¼ inches square, and 6 feet long, in the rough just as they come from the mill, at 7c. each, F.O.B. Westerly.

Remember, I send out Field-Grown Bulbs, divided ready for planting, except where noted.

CUT FLOWERS FOR SALE in their season, 25c. to 50c. per dozen, at the gardens.

For the benefit of persons living at a distance from my gardens, and who would like to see samples of my dahlias, I will send a sample box containing fifty blossoms of different kinds, all labeled with their names, for \$1.00, to pay for the labeling and packing, express to be paid by purchaser. However, I should not recommend sending them over 500 miles.

Orders for bulbs will be booked for spring delivery any time in the year.

NOTE.—Have you read instructions carefully about ordering and the best way to send money?

LAST BUT NOT LEAST

Why not buy your dahlias of the person who makes a specialty of dahlias and who grows them exclusively? Isn't that a point worth considering?

On the inside of the back cover is a partial view of one of my fields containing over four acres of dahlias. This picture alone should convince the most skeptical that they can grow dahlias successfully.

There are always some people who do not succeed in growing dahlias with their first season's experience, and are naturally very much disappointed. To those I wish to say that it is not due to a fault of mine or of the bulbs, but is due wholly to your method of cultivation, kind of soil, or weather conditions. Exercise a little patience and a whole lot of good common sense, and you will grow as nice dahlias as any one.

Any one who has a few feet of garden soil can grow dahlias. They are grown entirely in the open—you do not need to have a greenhouse to plant dahlias. Improve the looks of your yard by planting a few of them.

IF YOU HAVE GOOD LUCK WITH YOUR DAHLIAS, TELL ME SO. I LIKE TO KNOW THAT YOU ARE PLEASED. IF YOU DO NOT SUCCEED BE SURE TO TELL ME THAT, FOR THERE IS A REASON, AND I MAY BE ABLE TO ADVISE YOU CONCERNING IT.

NOTE THE FOLLOWING

Do not plant your dahlias in the shade.

Stunted plants, thick and bushy on top, with no blossoms, are the result of dry weather.

I guarantee every bulb I send out.

Do not wait for bulbs to sprout before planting. There is nothing like mother earth to sprout them. Plant them where you want them to grow.

The more flowers you cut the better dahlias bloom.

If too many buds appear, pinch them off.

Dahlias do well with me; they will with you, if you follow my instructions carefully, and above all, note what is said on another page, with illustration, in regard to watering.

DAHLIA SEED

A Chance to Obtain the Best Dahlia Seed In Existence

During the past season I have saved seed from my very best flowers and am proud to offer to you the best assortment of dahlia seed ever before offered by any one to the public. It must be borne in mind, however, that dahlia seed rarely, if ever, brings the same variety dahlia that the seed was taken from, but as this is the only way to obtain new varieties, it is most interesting to try them. I never save seed from any single dahlias, but always from the best varieties that I have.

This season's offerings are as follows:

Seed saved from my wonderful cactus dahlia and namesake, "Geo. L. Stillman," at \$2.00 per package.

Seed saved from the "Indian Family," at \$1.00 per package.

Seed saved from my very best pæony-flowered dahlias, except the "Indian Family," at 50c. per package.

A general mixture of all varieties, except singles, at 25c. per package.

A general mixture of my best collarettes, at 25c. per package.

Full cultural directions on every package.

Join the American Dahlia Society, and keep pace with the increasing dahlia interests of the country!

Every Membership helps to give it Strength and Utility!

It costs only \$1.00 to join, and annual dues of \$2.00, paid in advance.

The purpose of this society is to stimulate interest in, and promote the culture and development of, the Dahlia; to test out new varieties, and give them such recognition as they deserve; to study the diseases of the Dahlia and find remedies for same; to secure uniformity in awarding prizes at flower shows, and to give exhibitions when deemed advisable.

It is the intention of the Society to publish an information bulletin for its members as soon as funds permit.

Join this Society now by sending your fee, \$3.00, to the Secretary, Mr. Jos. J. Lane, 11 West Thirty-second Street, New York City.

WORTH REMEMBERING

Any one who has a few feet of garden soil can grow Dahlias. You do not need a greenhouse—they grow in the open. Do not plant in shady place. Watering in dry weather helps, but does not fill the requirement for good rains. The more flowers cut the better Dahlias bloom. If too many buds pinch them off. The rapid rise in favor of the Dahlia makes it a great commercial possibility.

TESTIMONIALS

It may interest you to read a few extracts from some of the many letters written by pleased friends and customers:

January 28, 1915.—A gentleman from Boulder, Colo., writes: "Please find enclosed order for spring delivery, together with check covering same. The bulbs we have had from you before have given unparalleled satisfaction, never having lost but one in the several years we have ordered from you."

September 9, 1915.—This same gentleman writes: "We never have had such wonderful flowers as we have had this season. The 'Delicate Lady' has borne abundantly and surely demands a better description than offered in your 1915 catalogue."

April 23, 1915.—A gentleman from Westmont, Montreal, Canada, writes: "It is very nice of you to offer to send me the two dahlias that you were short of when you filled my order, gratis. Such treatment of a customer cannot but be highly appreciated. The tubers received look to be nice and healthy, a lot of them already sprouting, and I hope to have a nice show, as my soil is good."

July 13, 1915.—A lady in Syracuse, N. Y., writes: "Thank you very much for so promptly replacing the dahlia tuber that I returned to you. It is a pleasure to deal with one who is so fair and square."

August 18, 1915.—A lady in Seabright, N. J., writes: "I wish to tell you what splendid results we have had with the dahlia bulbs that I ordered from you last spring. My plants commenced flowering the first of July and have produced magnificent long-stemmed flowers without interruption. I may add that I carefully followed the planting instructions given in your catalogue and the results have amply repaid me."

August 17, 1915.—A gentleman from Millstone, N. J., writes: "The dahlias that I received from you last spring have, by my following your directions together with the use of the sheep fertilizer, been a great success. The blooms have been very large and I will keep on doing hereafter as I have this summer, for I have had the finest of blooms with larger flowers. Thanking you for the gratis 'Sunburst,' which is a beauty indeed, I remain"

April 27, 1915.—A lady in Bedford, Ind., writes: "The package of dahlia seeds arrived all O. K. and are now growing. I think every seed grew, for I have several over a hundred strong, vigorous plants."

October 12, 1915.—A lady in Bethpage, Tenn., writes: "I am writing to say that I had wonderful success with my dahlias; I had lots of beautiful flowers and they were greatly admired by all."

August 28, 1915.—A gentleman from Trenton, Ohio, writes: "Those dahlias that have bloomed so far and that I have received from you have proven very fine; am anxiously awaiting the balance to show me what they are. The 'W. W. Rawson' that you sent me gratis is certainly a beauty, and I thank you very much for same."

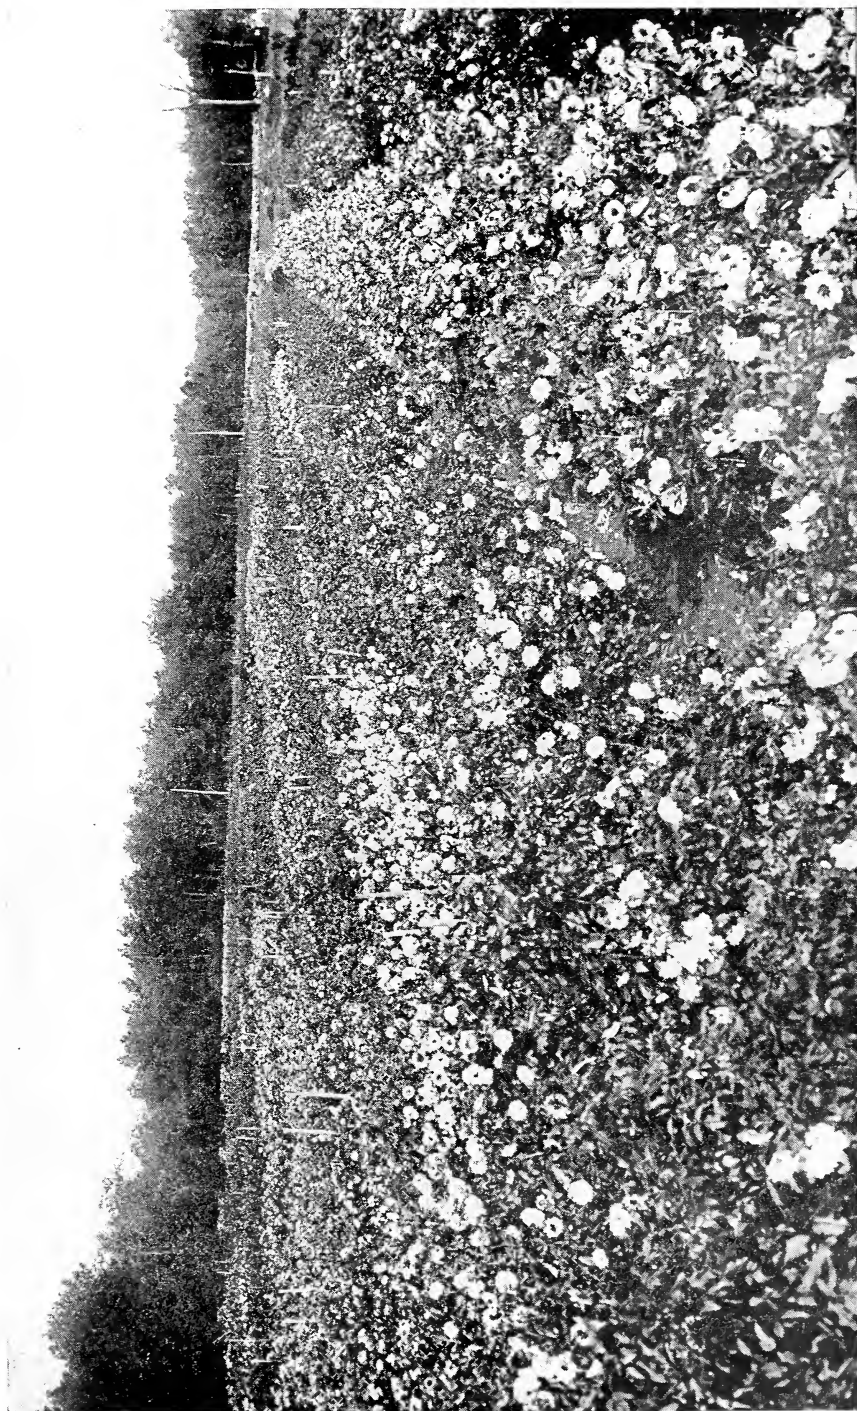

July 22, 1915.—A gentleman from Elco, Pa., writes: "I am writing to let you know that the dahlias I bought of you are all in full bloom. They are all planted near my front yard fence, facing the street, and every one remarks about their beauty."

November 4, 1915.—A lady in Morrow, Ohio, writes: "Although we are late in writing to you we are pleased to let you know the dahlias were more than we really expected them to be, they all bloomed and we would not take what we paid for them, and we hope to have more next year. We thank you for your kindness to us and we are more than pleased with your dahlias."

June 13, 1915.—A gentleman in Wilmington, Del., writes: "Dahlia bulbs received in fine condition, planted same at once, and they are now above ground. Was sorry to put you to so much trouble, and thank you very much for your kindness. I will use my best efforts to promote your interests in my city. Wishing you a successful season, I beg to remain"

June 11, 1915.—A lady in Switzer, Ky., writes: "My dahlias are all from stock purchased from you and are beginning to bloom (June 11th). They are admired by every one and I get more enthusiastic about them with every new bloom. I thank you very much for the extra you sent me, it will soon be in bloom. Last summer a florist saw some of my dahlias at a funeral and remarked that they were the prettiest he had ever seen, his own not excepted. That is saying something, isn't it?"

I wish to add that these are only a few extracts of the many that I have filed away from the past season's enthusiastic customers.
